

TEACH4SD

Transforming education area and competency hub for sustainable development

TEACH4SD
Lead the transition
Centres of Vocational Excellence

TEACH4SD aims to lead the development, test and validation of best and next practices of Education for Sustainable Development (ESD). TEACH4SD stands for Transforming Education Area and Competency Hub for Sustainable Development..

Through the creation of five regional Centers of Vocational Excellence (CoVEs), the project addresses the specific needs and challenges of key occupational fields in the European labour market, including health, trade, fashion and textiles, construction and entrepreneurship.

Specific objectives

- To carry out a state-of-the-art review on ESD
- Develop educational prototypes based on roadmap insights
- Implement prototypes at CoVEs with industry input
- Certify ambassadors for ESD promotion
- Develop sustainable reskilling systems
- Launch the European Centre of Vocational Excellence Platform for open education and networking

Key outcomes

TEACH4SD is committed to the goals set forth in the European Green Deal, focusing on addressing climate and environmental challenges. The initiative seeks to forge new connections between industry, research, and education sectors. Its core principle is to empower and educate teachers, enabling them to play a pivotal role as agents of change and contributing to a socially equitable green transition in Europe.
